A vertical placement of
barcode is recommended

ARTWORK PLACEMENT

Artwork should be dropped in or placed within the called out print area of the dieline and must be placed on the “ARTWORK” layer. Be sure to outline all copy and embed all images.

Avoid placing artwork outside of the print area, this will not print. Top and bottom 2mm clear are used to separate impressions and cutting, the left 1mm and right 4mm are used for seaming.

Folds can be moved slightly to the left of the die line if needed. Fold cannot go down the middle of the label. Main artwork (Logo, Slogan, Product Name) should NOT be placed on a fold line to avoid art distortion.

Main artwork is recommended to be placed centered within the Lay Flat folds and kept away at least 7mm's away from these.

Foil should be made with a “FOIL” spot color and should be placed in the Foil layer.

Matte Varnish (Flood Matte or Spot Matte) should be create with a “MATTE” spot color and should be placed matte layer. The Matte needs to be 7 mm away from the 1 mm side of the label for seaming.

Artwork can have the aluminum showing through and have the image with transparency to the aluminum can. This is referred to as “Knockout”. Artwork not requiring “knockout” must have a full white layer behind the artwork. The color representing white should be named: HPI-White. The HPI-White should be a spot color and placed in WHITE layer and should be set to Overprint.

Keep important copy or artwork at least 3mm's away from the 1mm clear for seaming. Recommended is 7mm's (Matte as well).

It is recommended that all barcodes be placed vertically, never horizontally as the bars may distort with the transverse shrink

All barcode stripes must be darker than the void spaces. Bars should never be white.

IMPORTANT: Barcodes must measure at least 1 inch measuring from top bar to the bottom bar of the bar code.

***When designing artwork, please note that printed shrink film applied to cans will always shrink in the transverse up to 8 to 10%. Straight lines and circles may be affected horizontally.**

MANDATORY LABEL INFORMATION

GRAPHIC DESIGNER IMPORTANT INFORMATION

TYPE SIZE AND LEGIBILITY REQUIREMENTS FOR HEALTH WARNING STATEMENT

Container Size: Minimum Type Size Requirement

Over 237 ml (8 fl. oz.) to 3 liters (101 fl. oz.) 2mm

• Be readily legible under ordinary conditions and appear on a contrasting background

HEALTH WARNING STATEMENT

The statement below must appear on all alcohol beverages for sale or distribution in the U.S. containing not less than 0.5% alcohol by volume, intended for human consumption and bottled on or after November 18, 1989:

GOVERNMENT WARNING: (1) According to the Surgeon General, women should not drink alcoholic beverages during pregnancy because of the risk of birth defects. (2) Consumption of alcoholic beverages impairs your ability to drive a car or operate machinery, and may cause health problems.

NAME AND ADDRESS - (REQUIRED)

The name and address of the producer/bottler or packer must appear on the label optionally preceded by an appropriate explanatory phrase such as “BREWED AND BOTTLED/PACKED BY,” “BREWED BY” or “BOTTLED/PACKED BY”

ALCOHOL CONTENT - (FORM OF STATEMENT)

Alcohol content must be shown as:

“ALCOHOL (ALC) ___% BY VOLUME (VOL)”
“ALCOHOL (ALC) BY VOLUME (VOL) ___%”
“___% ALCOHOL (ALC) BY VOLUME (VOL)”
“___% ALCOHOL (ALC)/VOLUME(VOL)”

ARTIST AND CUSTOMER APPROVAL CHECKLIST

ALL POINTS ON THE FOLLOWING LIST MUST BE READ AND CHECKED OFF

The accuracy of all the information that appears on the sleeve falls under the responsibility of the Customer. Please review each item carefully.

ART DESIGNER AND CUSTOMER REVIEW AND APPROVAL CHECKLIST

- ☐ Layout Orientation is correct.
- ☐ All copy has been outlined or provide the font(s) with the artwork.
- ☐ All images have been embedded.
- ☐ For art designer: Please, convert all Pantone Colors to CMYK. If needing a Pantone Color to reference, please use **Pantone+Color Bridge Coated**.
- ☐ All copy is checked for spelling, content, and legal compliance.
- ☐ Logos are correct for design and position.
- ☐ Please have the areas where the “knock out” be in the white layer
- ☐ Fluid ounce Declaration values are correct (ounces/liters).
- ☐ Ingredients and or Nutritional Facts (if any) are correct.
- ☐ Ingredients Declaration / Nutritional Facts (if any) are correct for spelling, content, and in the order approved by regulatory standards.
- ☐ “Distributed By” and “Statement of Origin” are correct for spelling and content.
 - Government warning information is correct, where applicable
 - (e.g. Organic Certifier, Kosher Certifications, Recycling, etc.)
 - Any additional logos/legal content is accurate when applicable.
- ☐ If product is Organic, verify the Organic Certifier disclosure is correct.
- ☐ UPC Bar code has been designed and positioned correctly and has been verified as scannable.
- ☐ Seamed Lay Flat folds are positioned correctly and are not landing on top of any primary logo or artwork of importance.
- ☐ RBDG Logo has been placed

IMPORTANT:

Saxco makes every attempt to quality control all Artwork files. However, the accuracy of the Artwork Content is NOT OUR RESPONSIBILITY. Therefore, each Customer must understand the following terms:

- ALL ARTWORK files MUST have the CUSTOMER sign off before digital files are processed for order and printing.
- Saxco accepts NO RESPONSIBILITIES for any errors and/or omissions (including typos) contained in the Artwork file after FINAL ARTWORK has been signed off as approved.
- ALL CONTENT must be checked for factual and legal assurances, and will be the responsibility of the Customer to approve, including any text created or added by Saxco on behalf of the customer.
- Physical or Electronic Approval of this Artwork CONFIRMS ACCEPTANCE OF THE TERMS described.
- Any costs to update Artwork or Re-Print after Customer Approval, will be responsibility of the customer.

NOTE: Once artwork has been submitted to the CSR, there is a 24 -48 hour turn around time for soft proof delivery.
